STEEL TRACKS

Track Chains

Our steel tracks are heat treated to ensure durability for extreme wear. The heat treating reduces chipping caused by violent knocks or strikes.

Pins and Bushings

STI Pins and Bushings are available in different configurations and specifically engineered for rough conditions.

Track Shoes

All shoes are precision cut to required length with bolt and mud holes punched out to accommodate for required sizes. All shoes are then heat treated and tempered to prevent cracking or quenching.

Track Assembly

All of our track groups are built with high quality, affordable parts. STI parts are heat treated and tempered to handle extreme conditions.

Warranty: 3 Year - 4,000 Hours w/Wet Turn Assurance

IDLERS, ROLLERS & SPROCKETS

STI offers a wide range of front and rear idler assemblies, rollers and sprockets. They are manufactured to withstand the roughest environment for your equipment. Our idlers have top quality seal groups with excellent lubricating oil retention. All of our parts are available for crawlers, dozers and excavators.

Warranty: 3 Years - 4,000 Hours

RUBBER TRACKS

STI Rubber Tracks are manufactured to OEM specifications and available for most machines. Our tracks are made from 100% virgin rubber and not reprocessed rubber like other manufacturers.

STI Benefits:

- Long-lasting, Low abrasion rubber tread compounds
- Extreme Durability
- Even traction distribution
- Low noise vibration

Available Patterns Include:

- Block Pattern
- C Pattern
- Staggered Block Pattern

**Warranty: SS 12 Months - 1000 Hours
ME 18 Months - 1500 Hours**

GROUND ENGAGING & CUTTING EDGES

Our high abrasion durable GET are designed to tackle the toughest job. STI bucket teeth provide the best terms of wear resistance, durability and strength manufactured to OEM specifications.

STI cutting edges are manufactured with high alloy steel to provide unsurpassed durability for your toughest jobs.
