

OZONE DESIGN

Located in New York City just below the Fashion Walk of Fame is the Ozone Design Showroom and Office where everything you've come to love is conceived and designed. inception distribution, our office is the hub of creative, artistic and beautiful sock design.

COLOMBIA

across the world. Each season, we find new inspiration in the aviary outside of the production facility full of brightly hued parrots and cockatoos that inspire our color palette.

FRANCE

Our Colombian mill isn't Our family-run hosiery mill just reliable for its state of is one of the last standing the art machinery and in France. It is part of a access to gorgeous yarns historic tradition of refined manufacturing, steeped in fashion -- and it certainly lives up to it. Located in a charming village in Alsace, it's truly a pleasure to visit and watch our socks come to life.

JAPAN

We love how all of our mills are run by families -- and we're especially proud of the incredible artist who owns our Japanese facility. Located in Nara, we always feel welcome and inspired when we stop by (after all, you have our Japanese mills to thank for our luxurious sheer socks!).

Ozone Design is very happy to introduce this years catalog that brings you everything from our newest collections to the best of the best selling styles to stock your shelves. We'd like to encourage you to throw away the idea of "mens" and "womens". Ozone Socks are designed to reflect one's personal form of expression, whatever that may be. Due to the excellent quality cotton and elastic contents, our socks span a very broad gamut of sizes. If you prefer a taller or roomier sock, explore all products with codes beginning with "M". Or do you prefer cozier, and shorter? Go for "W" codes. And don't forget there are more colors and styles to be discovered on our website.

There is something for everyone when you choose Ozone Socks. Whether you prefer a bouquet blooming from your heels with our Apothecary Collection, or to lounge on your boat in both style and safety, there's the Sailors Delight Collection.

We are The Art of Socks for a good reason.

presenting Spring 2017...

From sea to sky, it's an exciting collection that celebrates the four seasons, an aquatic garden of underwater flora and fauna with a few other surprises. As always, lush cottons with vibrant colors are the foundation for many of our exciting designs, along with innovative, new designs using metallic yarns for our elegant sheers and dress socks.

We dove down to the seafloor to gather inspiration, collecting images of blooming kelp and coral, fish and dolphins. Back towards the surface, moving tides, bursts of bubbles and a majestic loon caught our eye. Nautical maps and zodiacal constellations had us looking to the stars for sophisticated Japanese sheers, accented by glittering textiles. Based on the success of our four elements socks, we took the same Japanese ukiyo-e woodblock prints to create a series for the four seasons. Each serves as the base for a truly unique piece of wearable art.

Set sail with us this spring — this collection is going to make a splash!

Pima Basics

75% PIMA COTTON 24% NYLON 1% SPANDEX ONE SIZE / MADE IN COLOMBIA

Going back to basics has never been better! Ozone's updated basics collection uses Pima cotton, a sibling of the Egyptian variety. The warm climates where Pima crops are grown give the resulting textile a soft and luxurious feel, producing a sock that is even lighter, more absorbent and durable than ever before, and topped off with a sleek athletic cuff.
