

*My husband, Kenneth Newman, has had health issues the past two years and has used Coleman County Medical Center five times. One of those was in the swing bed program, following procedures done out of town. Last fall, I, myself, was in the Coleman hospital. We have had excellent professional care, along with several others hospitalized at the same times. our hospital is being used! Kenneth and I are "seniors" who appreciate having these facilities. We do support the current board members and thank them for all their efforts in maintaining CCMC.*

*"I am a lucky lady," said Kay to the nursing staff at Coleman County Medical Center. "I had hip surgery in Abilene but transferred home to CCMC to recover." The Swing Bed Program has been wonderful. Everyone here is sweet and caring. I see a physical therapist every weekday, and now I can walk with a walker. "My hometown is so lucky to have this program. Thanks to CCMC, I am going home in a few days!"*

*– Kay Dyer, Coleman*

*"I had my knee replaced at the hospital in Brownwood, but when it came time for skilled nursing, I asked to be transferred to Dr. Atwood's care and the Swing Bed Program at CCMC. My surgeon said that was just fine and complemented Dr. Atwood saying, 'he doesn't miss a detail!' The physical therapist at CCMC worked hard with me to strengthen my knee, and the fantastic nurses and aides took me for walks to continue my rehabilitation. Everyone made sure my needs were met every step of the way, and the food was so good I may have to go on a diet! Everyone treated me like family...and not just because I was born at CCMC. You can tell by the way they do their jobs that the CCMC staff members have been called to this profession. I am grateful to have such excellent care available in my hometown, not only for myself, but for my husband, Roger, and my parents."*
