

To our valued clients and their families,

Like all of you, we are continuously monitoring developments in the ongoing situation regarding COVID-19 (Coronavirus). We are listening to your questions and concerns, and want to take this opportunity share our preparation and readiness steps.

All our actions are guided by the overriding principle that the health and safety of our clients, their families, and our employees is our number one priority.

We recognize that our services are a critical part of your child's success and we are taking a proactive approach in ensuring plans are in place to minimize any possible business disruption. Following the guidance of local governments and health officials in Minnesota, we are furthering our precautions. **Starting Monday, March 23rd, we will only be conducting online telehealth sessions for 2 weeks.** We will be reaching out to all scheduled clients individually to plan for this temporary change.

We appreciate your trust in us to deliver the services you depend on every day. On behalf of our entire team, we want you to know that you can continue to rely on us to do our best to continue to serve you and your family.
