

### Sandwich Activity

1. You have been challenged to create an image of a BLT sandwich for a client that looks like the real thing. You have been supplied you with a graphic of a plate from the dinner. The objective is to obtain a better understanding of Photoshop layers by creating the layers of a sandwich on the plate. You are to follow the directions given by the project manager for the target audience to complete the project.
2. Download the files linked below of the documents and images needed to complete the project. Save them in your Graphics folder on your desktop.
3. Use my instructions, watch the demonstrations in class, and use your time in class to assemble your sandwich and add your sides.
4. Make sure to label all of your layers in the Layers Palette. When you are finished save the file (as a .psd file) to your computer in your Graphics folder.
5. Save the file as lastname\_firstname\_sandwich.psd (ex. peterson\_mike\_sandwich.psd). **This is one of the few times you will not save both a PSD and JPEG of your work.** Submit only the **PSD** of your work (it cannot be graded as a jpeg). When ready, upload the file below. Remember to add a jpeg copy to your portfolio folder! **Make sure you've reviewed the rubric for this project to make sure you aren't going to lose any points!**
