

## Elite Technique

Students participating in the Elite Technique Program will be required to come to 3 designated days per week for both choreography and technique. These students will also be required to participate in 2 MANDATORY conventions designated by the office. Certain groups will be cast as Elite technique members only; therefore, if a student decides to drop the Elite program, they will no longer be able to participate on those routines. There are three options pertaining to the Elite Technique Program. There are four levels of Elite: Beginner, Intermediate, Intermediate-Advanced and Advanced. Please call to schedule a time to be evaluated for this program.

### PRICES

- 1- Elite Tap (\$25/month)
- 2-Elite Jazz/Ballet (\$50/month)
- 3- Elite Tap, Jazz and Ballet (\$60/month)

## Solos, Duos & Trios

Any student who wishes to do a solo is welcome to sign up for one. We believe that competing a solo is one of the best ways to get critiques and corrections to specific to that dancer. Solos, duo, and trios will have a set scheduled time to meet based on the order of registration. You can choose to come one, two or four times a month. These times are set for the entire year and can not be changed. Solos/duos/trios can be choreographed in August or throughout the year. A schedule of days and times will be posted for August solos/duos/trios and groups as well as any available technique classes. Solo/Duo/Trio times will be scheduled according to registration form submission. We also recommend letting the staff pick your duo/trio partners.

### PRICES

Solos/Duos/Trios are typically \$25/half hour and can be used any way you see fit! Examples: Two students may want to split a 1/2 hour time slot and each pay \$17.50. If you do (2) solos you may want to run both in the same 1/2 hour slot. Whatever works best for you!!

## Recreational Classes

Our Recreational Classes meet once a week from September through June. Recreational students will also perform in our end of the year recital.

1 hour Recreational Classes will have two routines and need two recital costumes.

1.5 hour Recreational Classes will have three routines and need three recital costumes.

## Competition Classes

### Intro to Competition:

Ages 5-7

The Intro to Competition program has a base tuition of \$130/month. These students will come one day to learn their two group routines and a second day to have their Technique classes. These students will also participate in the Junior Level Production at no additional fee.

### Petite, Junior, Teen and Senior Competition Teams:

Ages 6-18

Our Competition Team offers a wide variety of classes with classes offered 6 days a week. Students are required to take at least one Tap, Ballet & Jazz Technique class per week. Our base tuition of \$160 included unlimited groups and unlimited technique classes so students can come to any number of classes for the same price. Students typically have one set night for Choreography and a second night for Technique. We do not run their choreography and Technique together. We feel that students need separate times to truly focus on their training and do not want to take class time away to work on their routines.
