

UPS Power Product

Power your applications anytime, anywhere.

- Unique design for high reliability;
- High Energy efficiency ;
- High power density;
- Inherently N+X redundant;
- Integrated IGBT design;
- Wide input voltage range ;
- High input PF;
- Advanced battery management;
- Lighting & surge protection;
- Automatic fan speed adjustment;
- LCD/LED display option;
- RFI noise protection;
- 24x7 Smart monitoring & reporting;
- Space savings, small footprint .

BRAAMD INC.

EverExceed®
power your applications

Industrial Charger

Energize your batteries with powerful chargers

- Robust mechanical design;
- Parallel/redundant work mode;
- Rugged phase controlled technology;
- Intelligent battery management;
- Complete power protection;
- Smart communication & remote monitoring;
- Compatible with all types batteries;
- Longer functional life;
- Single & three phase available.
