Welcome to JB's Smokehouse. We are serious about BBQ and use only real split hardwoods to smoke our meats low and slow, for up to 14 hours. It takes a little longer, but it's worth the wait. When the pink smoke ring appears on the meat we know we did our job. Because we use our own spice rubs and sauces, our BBQ is so tender it will melt in your mouth. All of our sides, soups and salads are homemade from scratch and we hand cut your steaks to order every day. Yes there is something to be said about doing it the old fashioned way - "It's Delicious"! Thanks for joining us here at JB's and we hope to see you again soon.
