DAVID VOIGTS - NAVAL OFFICER - NEUROTORTURE WHISTLEBLOWER

Please learn more about this US targeting from Navy whistleblower and systems engineer David Voigts, who deliberately got hired to administer neuro-torture, so that he would understand the operation, and then shut it down. He has since become a Targeted Individual (TI). We thank David immensely for his courage and conviction, and for standing up for Americans, humanity, and Our Constitution.

Dr. R Duncan 00:50 (listen at 01) "...I merely came forward because my research...led me to a group of people that they call Targeted Individuals...ultimate technology...interface w the human brain...very dark topic...torture...no-touch torture...

...most sophisticated weapons system humanity has ever created...involves every aspect of science...tactics that are unimaginable...destroys lives...used on innocent people...they don't want this exposed...that is why I am speaking forward...sophistication is enormous...

...brain hacking, mind hacking...I'm gonna blame [CIA] the most...military also does it...Dr. Delgado...bathed in Earth's magnetic field...ESRI...don't want people to know...can't get away from it...multi-modal, all integrated...land, sea, air...HAARP... every time the military

gets a bigger budget, especially after 9/11, more targets came online...probably redundant systems...no single source of the energy...13:23 it would appear that initially the person's brain-print, their particular energy signature...like a thumbprint...needs to be collected

before the long process of retraining the brain to listen to another human being's brain or a computer... over time...the distance becomes irrelevant almost, anywhere on planet Earth...over time...easier to read an individual's brain..." (up to about 15 mins) 50 mins in total

16:00 "...this is called offensive information warfare technology...trying to crash that computer...crash that human being...map out all of the motivations we have...primitive...cultural...try to manipulate...altering emotions...imagine what future police will look like..."

2:03:59 I can't believe the CIA is that down & dirty

...it truly is unfathomable how psychopaths actually represent a major part of our society ...

2:07:13 Is it ever going to stop & how?...
