

## **PRODUCT DATA SHEETS**

### **EXTRACTOR DEFOAMER – PREVENTS FOAM FORMATION**

#### **DESCRIPTION**

**Extractor Defoamer** is a liquid additive designed to eliminate foaming due to residues left behind on carpets and rugs from cleaning chemicals. It promptly knocks down foam to allow for more efficient pick-up extractor detergent solutions and also reduces the build up of foam in the recovery tanks of extractor equipment.

#### **FEATURES**

- **ELIMINATES EXCESSIVE FOAM FORMATION IN RECOVERY TANKS**
- **CONTROLS DETERGENT RESIDUE FROM FOAMING ON CARPETS**

#### **USE AND DIRECTIONS**

Add 2 ounces of defoamer into the vacuum hose to eliminate foam in hoses and recovery tanks.
