

put noTone code between same notes played twice

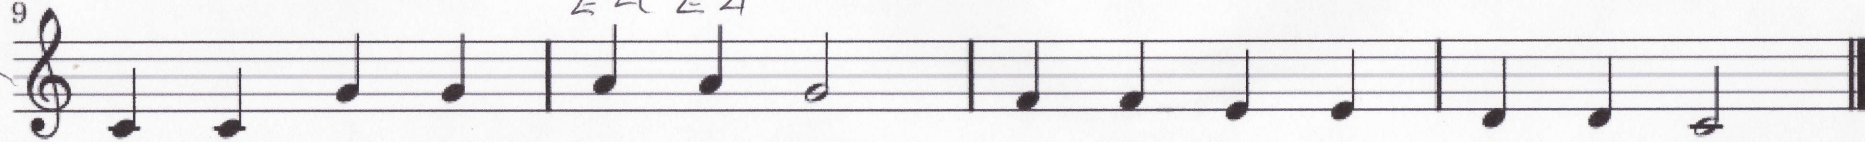

# Twinkle Twinkle Little Star

Twinkle, twin-kle, lit - tle star, how I won-der what you are!  
 C4 C4 G4 G4 A4 A4 G4 F4 F4 E4 E4 D4 D4 C4

Up a - bove the sky so high, like a dia-mond in the sky.  
 G4 G4 F4 F4 E4 E4 D4 G4 G4 F4 F4 E4 E4 D4

Twinkle, twin-kle, lit - tle star, how I won-der what you are!  
 C4 C4 G4

same as first line

```
tone (speaker, C4);
delay (400);
noTone (speaker);
delay (100);
tone (speaker, C4);
delay (400);
noTone (speaker);
delay (100);
```

(for quarter note)

This puts a brief silence between 2 notes that are the same so you hear them as 2 notes not one longer one

so adjust a you like

Suggestion -  
 Use 400 for delay for quarter notes  
 " 800 " " half notes  
 " 100 for delay for noTone
