

Josh's Sno Cone Shack!

Jaidyn and Gracie went to visit Josh's Sno Cone Shack.

There were 9 yummy snow cones at Josh's.

Roll the dice to find out how many snow cones they put in their box.

- Record what happens: $9 - 4$ makes 5 cones left at Josh's Sno Cone Shack
- Prove it! $9 - 4 = 5$ because $5 + 4 = 9$
