

# CDC MEETING MINUTES

JULY 29, 2015

CDC Members: Dave Crowell, Phyllis Arnold, Evan Miller, Nel Eely

Attendees: Carmen, Paul Hoyt, Bob Peabody, Anne Krieg

1. Paul gave a rundown on the new internet upgrade and its importance to Bridgton. Having a workshop to discuss this with business leaders is being planned
2. A town owned property list was given to the Town Manager. This list was requested by the BOS and was compiled and presented. It was discussed that the BOS would possibly make a determination of what properties the town might want to keep and which they would sell. A brief discussion ensued with the subject being that there was hope that the town might reap better financial benefit than they had in the past.
3. The subject of the Memorial School came up. Phyllis was brought up to speed regarding the history and failure of the school dept. to return the school to the town. The project is in Limbo.
4. Parking in the Town of Bridgton was discussed. The parking on Main Hill was discussed and had mixed acceptance as to the advantages of doing so. The committee made a motion and approved it to have the select board do an analysis of the town parking needs and what we have to fill those needs. This would leave us knowing what the short falls are.
5. It was decided that the CDC would have our meeting the Wednesday before the BOS meeting. This would allow the CDC to make presentations in a more timely manner to the BOS.
6. Paul Hoyt advised us that he might not be able to make the next meeting. Paul was asked if he would ask Bob McHatton to assume his place for that week.

Respectfully,

Dave Crowell, Co-chairman
