Of all the colossal pyramids in Egypt, the Pyramid of Meidum is perhaps the most enigmatic. This talk will look at the history of exploration of the pyramid, the efforts to discover who built it, and why it has such an odd shape. We will explore the chambers inside the pyramid, including some that were only discovered recently; and will try to answer the big question - did the Meidum Pyramid collapse, and if so, when?

The SSAE was formed in 1992 and is aimed at people in the Derbyshire, Nottinghamshire and south Yorkshire areas with an interest in Ancient Egyptian history and art.

The **SSAE Main Society** has 6 lectures a year (3 in Nottingham, 3 in Chesterfield), social events and trips in the UK and abroad and produces a Membership magazine (the Scribe) 4 times a year.
