

# The New Healthy Rage, From Guayeco Imports

## 100% All Natural Guava Products

### Who We Are

Guayeco's delicious gourmet guava marmalades and jams were created back in the 1950s in the small Mexican village of Calvillo, where the fruit is grown. The climate and soil in this region produce the world's finest guavas, which are transformed into delicious jams and marmalades.

These exquisite products, developed from cherished family recipes, were passed down to the family of Cesarita Martinez (below left), and now they're available to you from Guayeco Imports. To keep her grandmother's legacy alive, Marie Maldonado-Cohen (below right) has decided to continue the guava tradition. Guayeco Imports is pleased to bring you their unrivaled, 100% all-natural family treasures.
