

Design Review Committee Minutes  
June 17, 2010

The DRC (Metschan, Sluman) met with Margaret Russell and Tim Castille Thursday June 17, at 1300 on Lot 2. The revised Russell plans call for a home to be constructed 45 feet from the stake located at the junction of the driveway line and eastern boundary line of lot 2.

It appears that the proposed structure can be located a bit further south on the lot while improving the view from Lot 2 and preserving the views of other dwellings. Accordingly we recommend that the proposed structure be located 54 feet from the referenced boundary stake.
