

NURSE MANAGER

Pediatric/Neonatal Transport Team

Pediatric and Neonatal Transport

This position in the University of Iowa Hospitals and Clinics Department of Nursing is a collaboration between Emergency Services and Children's and Women's Services. With more than 300 transports each year by ambulance and helicopter, the specialized neonatal and pediatric transport team that consists of specially trained neonatal/pediatric nurses and respiratory therapists, ensures critically ill newborns and children are quickly and safely transported to the University of Iowa Stead Family Children's Hospital, Iowa's only comprehensive and nationally ranked children's hospital.

University of Iowa Health Care

UI Health Care is Iowa's only comprehensive academic medical center, employing nearly 900 physicians and more than 2,500 nurses. UI Hospitals & Clinics is an 811-bed tertiary and quaternary care facility, including the UI Stead Family Children's Hospital, a 190-bed state-of-the-art facility with Iowa's only level IV Neonatal Intensive Care Unit and Level I Pediatric Trauma Center. The Carver College of Medicine is ranked as one of the nation's best public medical schools and offers a full range of accredited residency and fellowship programs. Its thriving research enterprise has received \$2 billion in NIH funding over the past decade.

About this position

The pediatric/neonatal transport team at UI Hospitals & Clinics is expanding and searching for a nurse manager to provide managerial and clinical leadership through planning, organizing, directing, evaluating and improving health care operations and clinical education programs. This position will collaborate with leaders in nursing and respiratory care, AirCare, pediatrics and neonatology to ensure infants and children are quickly and safely transported to Iowa's only comprehensive and nationally ranked children's hospital including a Level IV Neonatal Intensive Care Unit and Level 1 Pediatric Trauma Center.
