

Past Distinguished Lecturers

Robert A. Leather, MD (1986)

Current Status of In Situ Saphenous Vein Bypass Grafting

Lester R. Sauvage, MD (1987)

A Unified Perspective of Arterial Grafts

John J. Bergan, MD (1988)

Problems in the Popliteal Fossa

D. Eugene Strandness, Jr., MD (1989)

The Non-Invasive Evaluation of Renovascular and Mesenteric Artery Occlusive Disease

Alexander W. Clowes, MD (1990)

Prevention of Stenosis After Vascular Reconstruction: Pharmacological Control of Intimal Hyperplasia

Jesse E. Thompson, MD (1991)

Some Observations of Vascular Surgery History

Robert W. Barnes, MD (1992)

Vascular Surgery: The Burr Under the Saddle

Norman R. Hertzner, MD (1993)

Health Care Reform in Vascular Surgery: Where We Stand and How We Got There

Frank J. Veith, MD (1994)

Endovascular Stented Grafts: Role and Impact on Vascular Surgeons

James S. T. Yao, MD (1995)

Vascular Injuries in Athletes

F. William Blaisdell, MD (1996)

Heparin: Controversies and Misconceptions

Juan C. Parodi, MD (1997)

Evolution and Current Results of Endovascular Aneurysm Repair

James C. Stanley, MD (1998)

Renovascular Hypertension at the Close of the Millennium: Pharmacologic, Endovascular and Conventional Surgical Therapy

C. Melville Williams, MD (1999)

What We Know and Don't Know About the Natural History of Dissecting Aneurysms of the Descending Thoracic Aorta: Implications for Stent Graft Therapy

Thomas Fogarty, MD (2000)

Vascular Surgeons in the New Millennium

Colleen M. Brophy, MD (2001)

Stress of Life From Man to Molecules

Peter J. Deckers, MD (2002)

Professionalism, Quality and an Evolving Health Care Delivery System

Wesley S. Moore, MD (2003)

50 Years of Progress in the Management and Prevention of Ischemic Stroke

Julie Freischlag, MD (2004)

Abdominal Aortic Aneurysms: How Things Have Changed Over 50 Years

Patrick Morrissey, JD (2005)

The Impact of the MMA: Healthcare From the Inside

Anthony D. Whittemore, MD, FACS (2006)

Impact of Professionalism of Safe Surgical Care

Brian H. Annex, MD (2008)

Advances in Lower Extremity PAD: From Genetics to Novel Therapeutics

Ronald L. Dalman, MD (2009)

Modifiable Risks for Aneurysm Progression: Updates From the Stanford SCCOR in AAA Disease

David Hanscom, MD & David Elaimy (2010)

Awake at the Wound

Past Distinguished Lecturers

Glenn D. Steele, Jr., MD, PhD (2011)

Re-Engineering Systems of Care – Surgical
Leadership

Professor Christos Liapis (2012)

Carotid Artery Interventions in the Post-RCTs Era

No Speaker (2013)

Joseph P. Vacanti, MD (2014)

Regenerative Medicine Through the Eyes of a
Surgeon

No Speaker (2015)

No Speaker (2016)

Bao-Ngoc Nguyen, MD (2017)

Vascular Surgeons and Wound Healing – Beyond the
Successful Revascularization

Bruce Perler, MD (2018)

An Evidence-Based Approach to Asymptomatic
Carotid Artery Disease: Nihilism is Not Appropriate
or Acceptable
