Considered Changes to the FoLL Website, March 2019 and Study for Service to Use for Online Donations

Add items that raise awareness for the good things FoLL does for the libraries. These listed items will support the “Give a Gift” buttons we have. This will ease the burden on the gift letter to not have to specify these gifts. The letter may be generic and could stand on its own for a longer period of time than just one year. Our ultimate hope is to find a suitable tool to use for collecting online donations. Items may be added to the pages that presently exist for each of the two libraries.
