RESEARCH & EXPERIENCE

“The need for rapid treatment at the scene of an MCI remains, without this needless lives are being lost...”

With many years of international experience in Multiple Casualty Incident (MCI) response, we have accumulated research and feedback from historical events on ways to improve survivability from MCI's. Guided and tested by our customers we have developed the SMART T.R.I. Pack™ to make a real difference.

SMART EQUIPMENT™

for triage that works™

SMART T.R.I. PACK™

The **SMART** T.R.I. Pack gives the responder the ability to perform rapid life saving interventions whilst conducting effective triage and collecting casualty numbers.

This combination has been shown to be vital in initial on-scene command and control. Whether you are looking to ensure MUCC Compliance or improve your ability to respond to multiple trauma patients the **SMART** T.R.I. Pack will help you ensure you have the right equipment in the right place at the right time.

SMART TAG™

The **SMART** TAG™ is a comprehensive all risk Triage Tag. Highly visible in all conditions, its folding design saves time during triage. Proven to work at numerous mass casualty incidents worldwide.

SMART TAPE™

The **SMART** TAPE™ allows rapid, safe, evidence based triage of children at the scene and thereby maximises the pediatric resources available.

By relating a child's length to their normal physiological values the **SMART** TAPE™ is unique in providing an age adapted triage algorithm.

Usable in low light, this pocket sized tape is tough enough to be reused time and again in the worst conditions.
