

March 1, 2021

Our system is fully pressurized and water service has been RESTORED to the Town of Greenwood.

100% of residents and businesses are restored and are able to revert back to NORMAL water usage.

*If you do not have water service at this time, please call the Greenwood Emergency Water Line at 318-208-4693.

We are asking that residents AVOID UNNECESSARY WATER USAGE (ex: washing cars) for the next seven days to ensure our facility is not overloaded too soon.

We will flush the water system again today. This may stir up some sediment from the pipes or cause your water to appear white and milky. If you notice the latter, you are likely seeing air in the water. *If you pour a glass of water and let it sit, the air will clear.

Our latest water samples will be submitted to the LA Department of Health this week and we anticipate their approval to lift our BOIL ADVISORY based to those results. We will continue to update residents on any changes in service or procedure.

The Town of Greenwood would like to express our sincerest gratitude for the help provided by State Representative Danny McCormick, Senator Barry Milligan, Mr. Jump OHS Caddo Sheriff's Office, the National Guard, and all those in our community who joined together to serve one another.
