Enhanced grip features

Elite cup's external ridges provide better
interproximal cleaning and stain removal

Improved reach and access

Sleek design offers improved patient and
clinician comfort

Proudly Designed, Developed and Made in the USA!

**Overlay of Vera angle over
Young Classic Design**

Unique features of Young Cups

- The Screw is key
 - *Only screw cup prophy angle available*
 - *Most prophy angles are designed with a snap on cup, Young dental cups are designed with a screw to provide concentric rotation, be wobble-free and provide cup stability*
 - *You can feel the difference when compared to a snap on cup*
- External ridges
 - *Allow you to use all surfaces of the cup*
 - *Provide interproximal access*
 - *Increase stain removal & reduces splatter*

YOUNG

proudly made in the USA

5% Sodium Fluoride Varnish

D-Lish[®]

5% Sodium Fluoride Varnish

Clear Formula

Patients won't have to wait for colored varnish stains to gradually fade because this translucent formula is less visible on teeth

D-Lish[®]

5% Sodium Fluoride Varnish

No Stringing or Clumping

D-Lish 5% Sodium Fluoride Varnish is easy to handle and spreads evenly without messy clumping and stringing

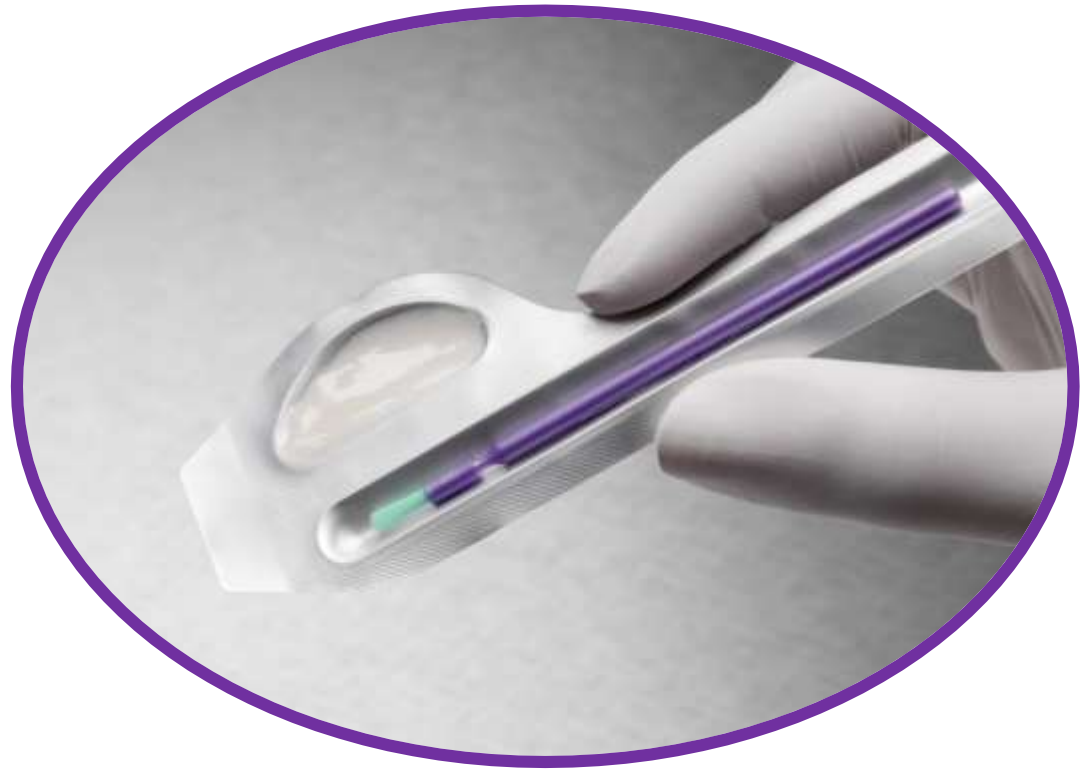

D-Lish[®]

5% Sodium Fluoride Varnish

Easy-to-hold Packaging

*The pre-mixed fluoride
varnish formula
comes in a package
designed to fit
comfortably in the
clinicians hand*
