

BANJO BRIEF

ISO Line Strainer Screen Color Change

ISO Standard 19732-2007

Banjo is changing the coloring scheme on our line strainer screens in accordance with ISO standard 19732-2007. This new color coding will align our screen colors to the colors used within the ISO standard. At the same time, *Banjo will print the part number and the mesh size on the plastic rib for quick and easy identification.*

The conversion to the new line strainer screen colors is dependent on our current inventory levels of screens. The LS line of part numbers will continue transitioning through the end of March 2016. The LST line of part numbers are expected to transition in March through May 2016.

See the chart below for color conversions.

Mesh Size	Old Color	New Color	RAL #
6	White	No Change	N/A
8	Blue	Zinc Yellow	1018
12	Black	No Change	N/A
16	Gray	Brown Red	3011
20	Beige	No Change	N/A
30	Yellow	Flame Red	3000
40	Brown	No Change	N/A
50	Red	Gentian Blue	5010
60	Orange	Gentian Blue	5010
80	Blue	Zinc Yellow	1018
100	Green	Traffic Green	6024
120	Black	No Change	N/A
150	White	Pure Orange	2004

Please note that colors can differ slightly depending on the display or printer. Please visit <http://www.ralcolor.com/> for a complete RAL color coding chart.

Mesh screens that are affected by the ISO standard color changes are LS1##, LS2##, LS7##, LST1##, LST15##, LST5## part numbers.
