

Tuna Brownies

Healthy, Homemade and HIGH VALUE~

Treats your dog will love for sure!!

Tuna Brownies- Courtesy of Kathleen Monje and Adrienne Schartz

2 cans of tuna packed in water- drained (can also use canned salmon or canned chicken)

2 eggs

1 tsp. garlic powder (can omit from recipe if you have a garlic aversion)

1.5 C flour (or more as needed to make dough stiff)

Mix together. Press (or roll) flat on an old cookie sheet to about ¼ inch thick.

Penny Hayes suggests spraying your hands or roller with Pam- very easy to press or roll that way!

Bake at 250 F for 30 minutes. Cut into ¼ inch cubes and refrigerate or freeze in Ziplocs!

I usually make a double batch (or two) as they freeze really well and then my house only smells like garlic and tuna a few times a year!! They thaw quickly, so you can grab a handful whenever you are headed for a training session and they are ready to use in 15-20 minutes!
