Material & Care

Made of hi-fire ceramics.

Dishwasher safe and microwave safe.

All products are tested for FDA compliance and for lead and cadmium using test method ASTM C738-94.

creature cups®

Creature Cups® was founded in 2010 by an avid coffee-drinking designer while working late nights in a Brooklyn, NY studio. We draw inspiration from all parts of life, from the coffee in the morning to the gargoyles on the Notre Dame Cathedral. Initial concepts are created in our new design studio in Austin, TX. Once perfected, the mold is sent to a ceramics studio in China owned by a family friend, where we closely monitor and control our products' quality. Creature Cups® draws a wide array of audience, from design kitchen enthusiasts to the cult followers of H.P. Lovecraft. Join us as we create, staying current, thought provoking, humorous, fun. And, always caffeinated.
