

Consignment terms:

Store policy states that On Course Consignment Shop will take 40% of all items consigned.

We will do markdowns every 2 months on all items, until items are sold. **No exceptions.**

Any items priced under \$2.00 will be considered a donation. Once an item reaches \$2.00 due to 60 day mark downs, it too will become a donation.

Any items left here from 1 year of date of consignment should either be picked up or will become a donation. Consignor is responsible for picking items up before the year is up. On Course will **NOT** notify Consignor of year anniversary.

Consignor is responsible for keeping track of items brought in. If Consignor needs to find out items they feel are still here at the store, we must be given at least 1 week advance notice to collect this information. The same applies for items to be picked up. 1 week advance notice is required to find the items for you.

If you have left items to be priced and we have contacted you with items that we can not sell and need to be picked up, you will have 7 days from the phone call to pick up those items or they will be donated. We have no room for storage of items we can not sell.

If you are dropping off and wish to have On Course price your items please sign below that you are accepting that we will use our judgment to decide what we can sell and we will donate the rest.

Signature of Consignor to accept terms and conditions as listed above.
