U.S. Federal Solutions Service Lines	
<ul style="list-style-type: none"> • Strategic Planning • Portfolio Management • Performance Management • Organizational Development • Human Capital Management 	<ul style="list-style-type: none"> • IT Strategy & Enterprise Architecture • Systems Engineering • Cybersecurity • Requirements Management • Change Management

RESULTS WE DELIVER

U.S. Federal Solutions consultants have extensive experienced managing large federal government programs and projects. Highlights and representative projects include:

- Developed and implemented an Agency-wide performance management plan successfully linking program level performance measures to strategic level performance measures; identified performance gaps and drafted mitigation options.
- Providing subject matter expertise on classified engineering and systems integration projects at the Office of the Secretary of Defense (OSD), Defense Logistics Agency (DLA), and the Defense Threat Reduction Agency (DTRA).
- Successfully developed the end-to-end (E2E) enterprise architecture for a mission critical Department of Defense (DoD) IT business system on schedule and within budget.
- Conducted Analysis of Alternatives (AoA) for competing technology solutions and provided detailed recommendations reports. Provided subject matter experts to improve existing business processes and develop functional and technical requirements.
- Designed performance measures and justification for programming decisions as part of the Program, Planning, Budgeting, and Execution (PPBE) methodology for the U.S. Army
- Provided Business Process Re-engineering (BPR), Requirements Management, and Enterprise Architecture experts for large-scale DoD business transformations
