To the Class of '61

I wanted all of you to know that I received very nice card from the class of 1961 offering condolences over the death of my sister Caralee Owens Mueller. I'd like to express my thanks to the entire class for the kindness and compassion that you've shown. My sister Caralee was a wonderful sister and I do miss her. However, I'm glad that she isn't suffering anymore. I'm looking forward to the time in the future when I'll see her again. Also, I'm looking forward to seeing all of you at that time, which will be much better than how things are now. Once again, I appreciate your love and concern.
