**MO-KAN CHAPTER  
EST. 1980**

Life is unexpected with many twists and turns, and we never know what tomorrow will hold. In the final days, will you have a plan in place? Reflecting on our end-of-life wishes doesn't have to be scary. One of the greatest ways we can honor our life is by having a plan for the future. The conversations surrounding this topic are never easy, but healthcare expert **Shalini Patel** helps answer questions and ease some of the anxiety for families.

Join us as Shalini shares some important information on **Advance Care Planning** including:

- **Understanding** the Who, What, Where, Why
- **Benefits** of Healthcare Directives
- **Steps** you can take to get started on a plan

***Shalini Patel** is a Care Transition Coordinator with St. Croix Hospice. She received her Bachelor's of Science from Baker University in Molecular Bioscience. Her career in healthcare has evolved from Specimen Processor at Physicians Reference Laboratory to a Research Project Associate to a Physical Therapist Assistant and onto Director of Rehabilitation. She transitioned to hospice care with a call and opportunity to educate individuals on the meaning of hospice and its benefits. She believes that the more educated and prepared people can be for the future makes a huge difference.*
