ORDINANCE 463

AN ORDINANCE AMENDING CHAPTER 112 OF THE SPRING LAKE PARK CODE
OF ORDINANCE RELATING TO TOBACCO

The City Council of the City of Spring Lake Park, Minnesota, ordains as follows:

Section 1. §112.01 shall be hereby amended as follows:

§ 112.01 PURPOSE.

Because the city recognizes that many persons under the age of 18 years purchase or otherwise obtain, possess, and use tobacco-related products, and those sales, possession, and use are violations of both state and federal laws; and because studies, which are hereby accepted and adopted, have shown that most smokers begin smoking before they have reached the age of 18 years and that those persons who reach the age of 18 years without having started smoking are significantly less likely to begin smoking; and because smoking has been shown to be the cause of several serious health problems which subsequently place a financial burden on all levels of government; this chapter shall be intended to regulate the sale, possession, and use of tobacco-related products for the purpose of enforcing and furthering existing laws, to protect minors against the serious effects associated with the illegal use of tobacco-related products, and to further the official public policy of the state in regard to preventing young people from starting to smoke as stated in M.S. § 144.391, as it may be amended from time to time.

Because the city recognizes that the sale of commercial tobacco, tobacco-related devices, electronic delivery devices, and nicotine or lobelia delivery products to persons under the age of 18 violates both state and federal laws; and because studies, which the city accepts and adopts, have shown that youth use of any commercial tobacco product has increased to 26.4% in Minnesota; and because nearly 90% of smokers begin smoking before they have reached the age of 18 years, and that almost no one starts smoking after age 25; and because marketing analysis, public health research, and commercial tobacco industry documents reveal that tobacco companies have used menthol, mint, fruit, candy, and alcohol flavors as a way to target youth and young adults and that the presence of such flavors can make it more difficult to quit; and because studies show that youth and young adults are especially susceptible to commercial tobacco product availability, advertising, and price promotions at tobacco retail environments; and because commercial tobacco use has been shown to be the cause of many serious health problems which subsequently place a financial burden on all levels of government, this ordinance is intended to regulate the sale of commercial tobacco, tobacco related devices, electronic delivery devices, and nicotine or lobelia delivery products for the purpose of enforcing and furthering existing laws, to protect youth and young adults against the serious health effects associated with use and initiation, and to further the official public policy of the state to prevent young people from starting to smoke, as stated in Minn. Stat. §144.391, as it may be amended from time to time.

In making these findings, the City Council accepts the conclusions and recommendations of: the U.S. Surgeon General reports, E-cigarette Use Among Youth and Young Adults (2016).
