

There are many components that make up a theatre. Here are some vocabulary words that relate to the theatre:

Stage- The area that the actors play upon

Upstage- The back part of the stage farthest from the audience

Downstage- The front part of the stage closest to the audience

Proscenium- The archway that frames the stage

House- Where the audience sits

Set- The background scenery

Prop- An object that the actor uses

Can you name all of the components of the stage?
