

The Dharma Horses and Their Stories

Clementine

This sweet mare came to us from Colorado from a loving owner living in another state. Clem was boarded in a pasture in the mountains and she just *loves* to play in cold water. She arrived with soundness issues and some serious hoof trouble, but

she is already responding to the care and nourishment here.

She has limited eyesight in her left eye, so we feed her Vitamin B2, cod liver oil and Eyebright herb. She gets Homeopathic Euphrasia doses and daily infusions of love and Reiki.
