## ACADEMIC EXCELLENCE THROUGH POSITIVE REINFORCEMENT

We offer a challenge-driven education using modern teaching strategies disposing of the pressure and trauma associated with conventional teaching methods. The curriculum is designed to give our children a positive attitude towards learning, train them to do higher thinking and prepare them for globalisation.

## THE SSM EXPERIENCE

- Preschool, Primary (grades 1 to 6), Lower Secondary (grades 7 to 8), Cambridge IGCSE (grades 9 to 10), Cambridge International AS/A levels or the International Baccalaureate Diploma Programme (grades 11 to 12)
- Trilingual education covering British English, Filipino and Mandarin
- Young, energetic and highly trained faculty
- Small student-teacher ratio to maintain quality student-teacher classroom time  
For Preschool – maximum of 12 students to 2 teachers  
For higher levels – maximum of 24 students per class
- School curriculum includes after school activities such as music, sports, performing arts, etc.
- In addition to the school's academic programme, children are offered closely supervised "special time" allotted to finish school work, areas of study that need more attention, play and socialisation.
- Adherence to NO HOMEWORK POLICY (only up to Secondary 2) to encourage quality family time outside the school; homework is given to Cambridge IGCSE and Cambridge International AS/A Level or the International Baccalaureate Diploma Programme students to prepare them for university level
- Clean, child-safe facilities enclosed within a secure, exclusive community; equipped with security cameras for added security within the school grounds
- Uniforms are required from Mondays to Thursdays; casual wear on Fridays.

## CURRICULUM

Our Primary and Lower Secondary Levels (grades 1 to 8) follow the Singapore curriculum, with additional subjects required by the Department of Education Philippines.

Our Higher Secondary Levels (grades 9 to 10) follow a two-year programme that will lead to the **CAMBRIDGE INTERNATIONAL GENERAL CERTIFICATE of SECONDARY EDUCATION (IGCSE)**, the world's most popular international qualification for 14-16 year olds. It develops successful students, giving them excellent preparation for their next steps in education. Cambridge IGCSE is taken in over 12,000 schools in 190 countries worldwide and is widely recognised by higher education institutions around the world as evidence of academic ability. This is widely used as a preparation for AS/A Levels, International Baccalaureate and US Advanced Placement courses. We also require them to take additional subjects required by the Department of Education for them to be eligible to advance to local University Level.

For Pre-university (grades 11 and 12), we offer top international qualifications. Our students may choose between the **CAMBRIDGE INTERNATIONAL AS/A LEVELS** or the **INTERNATIONAL BACCALAUREATE DIPLOMA PROGRAMME (IBDP)**. These are internationally benchmarked qualifications providing excellent preparation for university education.

Cambridge International AS/A Levels are taken in 190 countries and the qualification is widely recognised and valued by universities around the world. Some US universities give up to a year's credit as a result. Every year, thousands of Cambridge International A Level students gain places at good universities worldwide - including the UK, USA, Canada, New Zealand and Australia.

IB Diploma Programme (IBDP) provides a broad, balanced and challenging education for students in Grades 11 and 12. The programme will enable students to have deeper understanding of the world around them and will provide them with skills that will allow them to take responsible actions in the future. IBDP is recognised and respected by the world's leading universities. IBDP students apply to more than 3,300 higher education institutions each year, in close to 90 countries.

Singapore School Manila is an IB World School. As an IB World School, we are part of a global community of schools committed to developing knowledgeable, caring young people who will be ready to negotiate their futures successfully and make contributions resulting in a more harmonious and peaceful world.
