

Position Description:

Mental Health Resource Center is seeking a **Psychiatric Nurse Practitioner** in Jacksonville. This position will provide services for the MHRC Comprehensive Services Center (CSC).

The Psychiatric Nurse Practitioner works with the Clinical team to help individuals receiving medication management services and for individuals presenting to the Comprehensive Services Center (CSC) for crisis services. The Psychiatric Nurse Practitioner ensures individuals are assessed, monitored and provided with quality care and services. The program serves the adult population.

This is an ideal opportunity for an individual who is dedicated to providing a caring, therapeutic environment for this population and who enjoys working in a team atmosphere.

The essential functions of the Psychiatric ARNP include, but are not limited to:

- Provides diagnosis, medication, therapies, interventions and other approved treatment modalities for assigned caseload.
- Ensures each patient has problem-oriented treatment plan with appropriate goals and objectives.
- Ensures that patient is fully informed regarding any medication prescribed and signs the appropriate informed consent paperwork.
- Prescribes medication in accordance with state licensure, protocol, and the MHRC IDP formulary.
- Provides medication education, including side effects. Educates individuals about medication administration issues, notably compliance with prescribed regimen.
- Assists with referrals for additional health related concerns or issues.
- Assesses patients who may be in psychiatric crisis.

Position Requirements:

Master's Degree in Nursing and a current ANCC Certification in Psychiatric Nursing

Current APRN License in the state of Florida.

One year of experience in psychiatric nursing with one year of experience working with the chronically mentally ill adult population.

The Psychiatric Nurse Practitioner needs to make sound decisions independently and demonstrate good judgment on a daily basis. This includes but is not limited to

recognizing life threatening situations, safety risks, abuse, neglect, or other emergencies and responding appropriately.

Strong communication skills are essential and this individual must be able to interact appropriately with internal and external customers, including patients, families, caregivers, community service providers, supervisory staff and other department professionals.

Each employee contributes to the completeness and confidentiality of clinical records by ensuring documentation, paperwork and system entries meet internal and external guidelines for content, accuracy and timeliness. Must demonstrate proficiency in the MHRC Electronic Health Records (EHR) and Patient Information System demonstrated within three months of employment.

Proficiency in Microsoft Office and email are required.

Position Details:

Full- time and part-time day shift opportunities available. Full-time positions offer a comprehensive benefits package and part-time positions offer a partial benefits package.

MHRC also has weekend on-call opportunities with our Inpatient Programs for Psychiatric Nurse Practitioners with two years of post-Masters experience.
