## BUILDING & GROUNDS

We drew 4 names from the 9/24 work detail attendees and the following people will be able to pick \$25 gift cards from a wide assortment at the next work detail: Lars Nigra, Ed Bishop, Lou Levy and Gary Swope. We will be drawing 4 winners at each work detail, and keeping everyone's names from this and future work details for future drawings at the Christmas party as well.

**Our next work detail will be Sunday, October 23rd at 9:00 am.** This month we'll likely be doing more string trimming, light yard work, and some painting. There are also a couple light carpentry projects. Please email me to confirm you will be attending at president@yorkiwl.org and let me know what you're interested in. Knowing how many are showing up helps to get things organized and have materials on hand for various projects that day. Most work details are only 2 hours long. We will have a random drawing for some gift cards that day for those attending.

**The last work detail of 2022 will be Sunday, November 13th at 2:00 pm.** After the work detail on November 13th there will be a meeting of the Building and Grounds Committee (which includes every member of the club) to plan for 2023 work details. Members have requested to plan them further in advance so we will plan the whole year's at that time.

## MONDAY NIGHT TRAP

This was our last match of the year, and we were blessed with perfect weather. Both of us will be traveling on the weekend of our October match, so sadly no October match. We'll resume matches in March...weather permitting!

Thank you to everyone who shot our matches this year, our most successful year since re-affiliating at the end of 2018.

And we especially want to thank our dedicated setup crew. These guys and girls came out in large numbers for every one of our setups this year. We could not have had the year we had without them...in fact we wouldn't have been able to have matches without them!

Hope to see some of you at some more matches this year and the rest we hope to see next year.

## LAKE TONIAN

The last month has been busy at the pond. We have an aeration system in place now and a new piece of fishing/bird watching/turtle displaying structure has added itself to the southeast shoreline. That structure being the large pine tree that has leaned over the pond for the last 20+ years. I can say that it is already drawing fish; there were five(5) management bass removed from the east side of the structure one(1) week after it fell in.

Please use your common sense when fishing around the aerators and structure that has not been secured yet. There will be markers attached to the diffusers with rope by the end of the month, please do not pull on them if your lures gets tangled in them. If you feel the need to remove or damage any of these items, remember you are making hundreds of dollars in damage to the club property. I've personally watched more than one(1) member pull the placed structure out of the pond in order to retrieve a lure that was stuck.

We make a maintenance sweep of the pond four(4) times a year, removing tackle, sinkers, floats, line, etc. that are tangled in the trees; if your lure is that important to you, see myself at an open meeting or on the club grounds and I will see that whatever you have left behind is returned to you. If you are forced to cut your line and leave behind a high dollar lure, please contact myself at the number below and I will make arrangements to retrieve it for you in a more timely manner (I understand your pain, but I need you to understand that you are damaging what other members can enjoy).

As a reminder, the pond rules are as follows: (Note '13' is a common number)

- ALL Bluegill and Crappie are catch and release.
- Largemouth bass UNDER 13" are to be removed (no size too small); Largemouth bass OVER 13" are catch and release.
- Children under the age of 13 are the ONLY ones allowed to use redworms/nightcrawlers (NO OTHER LIVE BAIT IS PERMITTED)
- All other anglers are limited to artificial lures only.
- No form of watercraft is allowed on the water
- Access to the pond is limited to the water's edge; no waders, wet wading, or balancing acts on fallen trees.
- The small boat by the pond is for Management use only.
- The pond is available as a dog training area; all members are asked to be respectful of each others space (don't throw your training dummies in the area an angler is in, and don't fish in the area a dog is being trained).

If you are in need of angling support, please feel free to contact myself at the number or email address below, and/or search for Lake Tonian Adventures on YouTube. Enjoy your time at the pond!

## JUNIORS

*Hi Juniors!*

Limestone Springs was canceled due to a lack of interest. If you or your child has some ideas of

activities that you would enjoy please let me know. Not sure what will be getting into this fall and winter. I have a few craft ideas that the children may enjoy. Also, we need to start thinking about the Christmas party. The juniors gather gifts by donation or purchase. At the November meeting we will wrap all the gifts. Then we will auction the wrapped gifts at the December meeting/Christmas party to earn money for future Junior activities. If anyone has things to donate that would be great.
