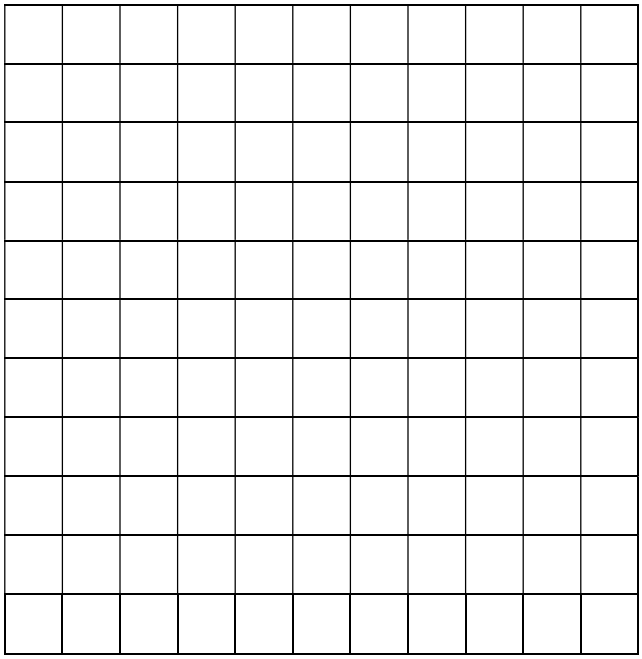
Is it I? It Is I!

Guess the words defined by the clues below. The answers vary in length from four to eleven letters long and of these, four are capitalized, one is a short form and one is foreign. The punctuation in the clues may or may not help the solver.

Enter the answers in the grid one after the other starting in the top left corner and in the same order as the clues. Across words that don't end at the rightmost square of the row will continue on the leftmost square of the next row. Similarly, down words that do not end in the bottom square will continue at the top of the next column.

Eleven across words and nine down words won't fit into the grid unless one of their letters is removed. The eleven letters removed from the across words, taken in order, will form a three word phrase. The nine down letters, taken in order, will also form a three word phrase. Both of these phrases are similarly informative, courteous and described by the mystery entry.



Across

1. Not out, out team occupier
2. Held fast in water, frozen that is outside one hundred, abound without article
