

LMQ Pressure Sealer

The Infinity Solutions LMQ Pressure Seal System is an integrated folder/sealer with a processing throughput of up to 3,000 forms per hour. The LMQ's innovative design offers an affordable desktop solution to automate any organization's short run pressure seal applications.

By leveraging Infinity Solutions' pressure seal technology, pressure seal forms are sealed as they are folded reducing the costly task of manually folding and stuffing of envelopes. The Infinity Solutions LMQ is an out of the box solution providing for a quick setup and quiet operation, and it offers user friendly controls and 6 digit resettable counter which return the simplicity to mail processing.

The LMQ incorporates bottom feed technology for continuous throughput increasing your organization productivity, while reducing operational costs. This remarkable unit offers five standard fold patterns (Z, EZ, C, EC, and V), custom folds, and forms up to 14" in length including return envelope applications.

LMQ

PERFORMANCE UNDER PRESSURE

- Quiet and low maintenance
- Simple operator controls with 6 digit counter
- Handles all popular fold styles: V, Z, C, and EZ- Pre-marked fold types for a quick and easy set-up
- Folds and seals up to 3,000 documents an hour
- Completely folds across document, No "pressure zones"
- 1 year on all parts
- National on-site service options available
- Manufactured in USA
