To who it may concern,

It is with great pleasure that I will recommend Jim Gundelach to you as a dental office business consultant.

He has helped my staff and me to systemize our office in order to produce consistently better results for ourselves and our patients.

His ideas have continued to offer us ideas for solving our own specific problems. He has always been honest and direct about his ability to help us and about what he felt it would take to accomplish our goals.

Sincerely,
