

\* \* \* 3<sup>rd</sup> Quarter OFA Report Has Been Posted \* \* \*

The 3<sup>rd</sup> Quarter OFA Report as of September 30, 2021 has been published on our club website. If your dog has received their CHIC number, indicating the completion of the three tests recommended before breeding and your dog is on our PPPA-Pedigree Database, their record has been updated accordingly.

The three components of our CHIC per the club's [Code of Ethics](#) are [Patellar Luxation](#), [HIP Dysplasia](#), and [Eye Examination](#). The only one needed to show continuous compliance is the Eye Examination which must be done yearly during the breeding life of dog. You can check the status of your dog or a dog you want to breed to at [OFA.org](#) and enter the Reg# or Name in the orange box in the upper right corner.

As always if you need help with any of the above, please let me know.

This Quarterly Report is on our Website Health Page and can be seen here:

Remember to review your dog's record and if you see anything missing, contact OFA as soon as you can.

Sincerely,

Robert "Bud" Hidlay, Chair  
PPPA Health and Research Committee  
Marietta, GA
