Rainbow Acres

Service Information

Provides transportation for their program participants only

Founded in 1974, Rainbow Acres has blossomed into a state-of-the-art community with modern, beautiful homes and the Palmer Community Center on a 50 acre campus. Approximately 100 residents, adults with developmental disabilities called Ranchers, live and work on the ranch. Three new houses, providing 30 new openings, will be available early in 2015. Families looking for a Christian community with heart, and lives of purpose and dignity for their loved one, have found Rainbow Acres from across the country, creating a diverse population representing many different diagnoses.

Each Rancher has a private bedroom and each house has a fully-equipped kitchen, dining room and relaxation area, as well as a suite for Caregivers.

The Health and Wellness Center, staffed with nurses and a medical records clerk, monitors all Ranchers and addresses their fitness and health needs.

Vocational Training, Worden Lifelong Learning Center and Computer Lab, Greenhouses, Crafts and Painting rooms, Stepping Stones creation and the onsite Weaving Studio all enhance the daily lives of Ranchers and empower persons with developmental disabilities to live to their fullest potential.

Primary enrichment programs include Equine Training at Rainbow Acres, Clavinova Connection music therapy, and Fine Arts Painting classes.

Palmer Community Center provides a commercial kitchen and central dining area for congregate meals and a beautiful hall for special events. Daily Prayer Circle, monthly Prayer and Praise services, Fine Arts Series professional entertainments, dance and aerobics classes, a fitness center, and speech therapy are additional options offered in the Palmer Center.

Verde Valley Caregivers Coalition

Service Information

Verde Valley Caregivers Coalition

Verde Valley Caregivers Coalition provides demand-response special needs transportation for the elderly and for adults with disabilities residing in the Verde Valley. VVCC's transportation services utilizes 100 or more volunteers with their private vehicles to provide rides and also contracts with one or more professional transportation services with wheelchair accessible vehicles to provide transportation to riders with wheelchairs.

VVCC provides rides to eligible individuals living in the Verde Valley area to destinations within the Verde Valley and to the Flagstaff, Prescott, and greater Phoenix area to healthcare related destinations or other destinations depending on available transportation resources.

VVCC initially screens new riders over the phone and may provide temporary transportation assistance pending completion of the full eligibility assessment. A full eligibility screening will be performed for each rider during a home visit. Temporary eligibility will remain effective until the full eligibility determination is complete. Both temporary and fully eligible riders are provided full services based on available resources. Riders may be provided with temporary eligibility status based on a temporary inability to drive due to health conditions.

Eligible riders are asked to contact VVCC's One-Call Center to request transportation services. The One-Call Center is open Monday – Friday, except on national holidays, between 9:00 am and 4:00 pm to accept ride requests. The One-Call Center will make every attempt to book transportation for rides requested at least 24 hours (business hours) in advance. However, due to limited transportation services and the potential for periods of a high volume of requests, riders are asked to book rides at least 48 hours in advance to better assure availability of transportation resources. Rides requested less than 24 business hours in advance may not be filled due to all available transportation resources being booked in advance.
