Who We Are

Pro2712 is a company dedicated to emergency and safety planning. Our name is based on Proverbs 27:12. This verse reminds us to be prepared. Failure to plan for emergencies leads to legal vulnerability, as we are non-compliant with federal and state laws and regulations. By not foreseeing danger ahead and taking precautionary planning measures, we are not fulfilling God's plan for our safety.

What We Do

We start with a comprehensive assessment of your facilities and review any safety and emergency procedures you may already have in place. Using OSHA regulations, National Fire Protection Association standards, Homeland Security, Department of Justice guidelines, and our state and local laws, we provide you with a written assessment that identifies what you are doing well and areas where improvement is needed.

Based on your individual assessment, we will provide you with an Emergency Action Plan and training for each plan that will address the specific needs unique to your operation. Our complete Emergency Action Plan consists of fifteen Individual plans that meet or exceed State and Federal OSHA requirements. Based on our assessment and your physical location, not all of these plans may be needed.

Emergency Action Plan:

1. Church Security and Safety
2. Emergency Evacuation and Re-entry Procedures
3. Wildland Fire
4. Structural Fire
5. Hazardous Materials (spills, leaks, gas leaks)
