# FIELD ARROWS

## No. 387 MATCHED FIELD ARROWS

Made of selected 11/32" Port Orford Cedar, fitted with target type parallel steel points. Matched to within 5 grains in weight and identical in spine. Long low (1 in 10) spiral fletching, Speed Index nock. Can be fitted with 125 grain points to match our broad-head hunting arrows. Custom-Built, state arrow length and weight of bow.  
No. 387 Matched Field Arrows.....\$9.30 Doz.

## No. 388 NON-SKIP FIELD ARROWS

A fine Non-Skip Field arrow made of selected 11/32" Port Orford Cedar, fitted with Fleetwood steel Non-Skip point that stops at the point they strike the ground. Matched in spine and weight, long low (1 in 10) spiral fletching and fitted with Speed Index nock. Painted full length of the shaft and beautifully crested. Custom-Built, state arrow length and weight of bow.  
No. 388 Non-Skip Field Arrows.....\$10.50 Doz.

## No. 380 BLUNT ROVING ARROWS

Closely matched in spine and weight, long low (1 in 10) spiral fletching, fitted with slip over blunt points making them almost indestructible. Made of 11/32" or 5/16" selected Port Orford Cedar shafts. Speed Index nock. Painted full length of the shaft and nicely crested. All lengths.  
No. 380 11/32" Roving Arrows.....\$9.30 Doz.  
No. 382 5/16" Roving Arrows.....9.30 Doz.

## No. 390 ARCHERY GOLF ARROW SET

The Archery Golf Arrow Set consists of one flight arrow fletched with very small feathers, one approach arrow with a special approach point to prevent skidding and one blunt putter arrow. Made of select Port Orford Cedar. These arrows are designed to take a maximum of abuse. The approach arrow and blunt are painted full length of the shaft and neatly crested. All lengths.  
No.390 Archery Golf Set, set of three arrows.....\$4.25 Set  
No. 392 Archery Golf Approach Arrow only.....\$1.50 Ea.

## No. 333 FLEETGLASS ARCHERY GOLF APPROACH ARROW

FLEETGLASS approach arrows are fitted with a 2½ inch needle like approach point which is absolutely non-skid. Fletched with 4½" spiral machine fletching, neatly crested. State bow weight and drawing length.  
No. 333 Fleetglass Archery Golf Approach Arrows.....\$2.00 Each

NOTE—BE SURE TO STATE YOUR ARROW LENGTH.

# HUNTING ARROWS

## No. 370 DEERSLAYER HUNTING ARROWS

Made of matched 11/32" Port Orford cedar shafts, fitted with Fleetwood No. 855, 125 grain Deerslayer broadhead. Matched in spine for heavy hunting bows and within 10 grains in weight. Fletched with ground base, long heavy hunting feathers, accurately spiraled. Replaceable Index Speed nocks, painted full length of shaft and neatly crested. Will conform to game laws in all states. All lengths.

No. 370 Deerslayer Hunting Arrows.....\$13.15 Doz.

## No. 375 KING OF THE FOREST HUNTING ARROWS

Made to the same exacting specification as our No. 370 except fitted with Fleetwood four (4) blade King of the Forest Broadhead, No. 850, 125 grain. This makes a well matched, rugged big game arrow which effects the deadliest killing power ever designed into a hunting arrow. A Four blade head has many advantages over the two blade in that it cuts a cross which prevents any binding of the shaft allowing maximum penetration. It also leaves an open wound so the blood may flow more freely, leaving a blood trail. All lengths.

No. 375 King of the Forest Hunting Arrows.....\$14.35 Doz.

No. 315 24SRT-X Aluminum Hunting Arrows fitted with Fleetwood Deerslayer or King of the Forest Broadheads.....\$32.50 Doz.

(See page 1).

## No. 377 SMALL GAME HUNTING ARROWS

Made of 5/16" selected Port Orford Cedar shafts, matched in spine and weight. Long low spiral fletching, Speed nocks, painted full length of the shaft and neatly crested. Fitted with Fleetwood No. 860 Small Game points. Custom-built, state arrow length and weight of bow.

No. 377 Small Game Hunting Arrows.....\$10.50 Doz.

NOTE—BE SURE TO STATE YOUR ARROW LENGTH.

# FLEETGLASS

**FLEETGLASS**—the improved fibreglass arrow. Our tubular fibreglass shafts were created especially for Fleetwood after months of painstaking experimenting by one of the foremost manufacturers of other fibreglass products. The shafts are made into arrows by Fleetwood Craftsmen with over 26 years of Archery know-how.

Each arrow in your dozen is identical in spine and within 5 grains or less in weight. The spine will not vary at any point on the circumference of the shaft—the first Fibreglass Arrow to produce this feature. Shafts are made straight and stay straight. It is foolhardy to say any arrow is indestructible but fibreglass will withstand much more punishment than any other arrow material. Fleetglass Arrows come in a large variety of wall thickness and diameters and we can properly fit any bow weights from 20 lb. to 80 lb.

**No. 338**  
**FLEETGLASS NON-SKIP**  
**FIELD ARROWS**  
**\$24.50 Per Doz.**

Our non-skip insert point is especially designed to stop an arrow where it touches the ground. Fletched with  $4\frac{1}{2}$ " spiral field type feathers. Matched in spine and weight. Point matches Fleetwood Hunting Points in weight. State bow weight and drawing length desired.

**No. 336**  
**FLEETGLASS BLUNTS**  
**\$23.50 Per Doz.**

Same exacting specifications as Non-Skip Field Arrow except a blunt tip instead of Non-Skip. State bow weight and drawing length desired.

**No. 340**  
**FLEETGLASS DEERSLAYER**  
**HUNTING ARROWS**  
**\$27.50 Per Doz.**

Matched in spine and weight. Fitted with Fleetwood No. 855 125 grain Deerslayer Broadheads. Fletched with extra heavy ground base spiral fletching, speed nocks, neatly painted and crested. State bow weight and drawing length desired.

**No. 345**  
**FLEETGLASS KING OF**  
**THE FOREST**  
**HUNTING ARROWS**  
**\$28.50 Per Doz.**

Same specifications as No. 340 except fitted with Fleetwood King of the Forest No. 850 125 grain four blade broadhead. A four blade head broadhead has many advantages; it will not plane in flight, will not bind, allows maximum penetration leaving an open wound so an animal will bleed more freely and leave a blood trail. State bow weight and drawing length.

**No. 334**  
**FLEETGLASS**  
**FISH ARROW**  
**\$2.50 Each**

Fish Arrows are not fletched—the drag of the line off the reel keeps them in line. Two prong special fish point. Made extra heavy with full 30" length to penetrate into deep water. State bow weight and drawing length desired.

# LEMONWOOD BOWS

The Lemonwood (Degame) in Fleetwood bows is imported from Cuba, especially selected for bows and thoroughly seasoned. Characteristic of our bows is the semi-flat, symmetrical shape of the limbs; not the cheap flat machine made bows so commonly sold. Our bows are hand tillered by an archer-bowyer who has worked at this trade since 1928 and has made over twenty-five thousand fine Tournament Bows.

## No. 100 THE FLEETWOOD

Fibre Backed Lemonwood Target Bow with Plastic Bow Tips. This is our finest Lemonwood bow and has proven to be the most durable bow for especially rough use such as Archery Ranges and Colleges. Hand made with the greatest care from selected lemonwood. White or Black vulcanized fibre backing adds beauty to the bow and prevents breakage. Colorful Fleetwood Plastic Bow Tips also enhance the bow's beauty and doubles the life of the bow strings. Genuine leather handle, beautifully shaped walnut overlay, highest grade genuine linen double loop bow string with keeper. Finished in clear flexible varnish, and perfectly tillered. An exceptionally smooth shooting tournament grade bow which will please the most exacting archer. The correct length of bow from 5' to 6' will be supplied to correspond with weight ordered and length of arrow with which it is to be used.

No. 100 The Fleetwood. Any weight to 45 pounds.....\$11.75 Ea.  
 No. 101 The Fleetwood. Any weight from 46 to 60 pounds..... 12.95 Ea.

## No. 105 THE MASTER

No. 125. The Junior. Length 5 foot only, any weight to 20 pounds.....\$5.25 Ea.

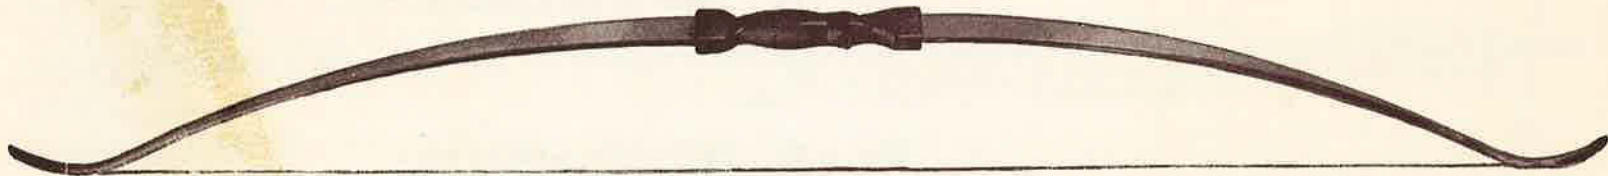

## LAMINATED BOWS

The new FLEETWOOD Laminated Working Recurve Bow is one of the finest bows on the market today for the target archers or the bow hunter. This bow has been in the experimental stage since 1946 and has been used by Champions throughout the Rocky Mountain Region during these years. We have designed this bow around four of the best Custom and Commercial bows on the market using the better parts of these bows and eliminating objectional portions. This bow has super cast, smooth shooting qualities, beautiful workmanship and appearance, and correct balance. Made in three popular lengths, 5 foot for the archer wanting a short fast bow for hunting; 5'6" for hunting and target shooting; and 5'10" for the target archer wanting the steadiest bow possible. Construction consists of Fibreglass backing, tapered and parallel laminations of maple, walnut riser and Glassface facing. Fitted with genuine leather handle, arrow rest, and double loop Dacron string. Truly a custom quality bow you will be proud to own. Reasonably priced at.....\$49.50 Each

## The Par-X Bow

## ALUMINUM ALLOY BOWS

"The Metal Bow That Shoots Better Than Wood"

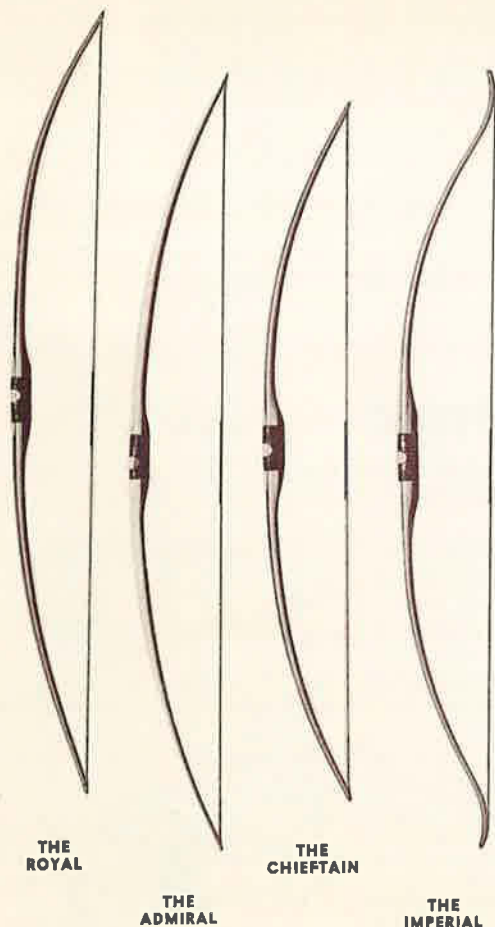

Since the introduction of Par-X early in 1948, it has become the most nationally popular bow ever built. This amazing new aluminum alloy bow actually excels the finest wood bow in cast and smoothness. It is the perfect hunting weapon, the ideal target bow and the choice of the field archers. All Par-X bows are 5'2" in length and available in the following weights: 30, 35, 40, 45, 50, 55, 60 and 65 pounds at 28" draw. For the purpose of computing shorter or longer lengths, figure approximately 2½ pounds per inch. No. 45.....\$29.50 Ea.

## FLEETWOOD TAKE-A-PART BOWS

The Fleetwood "Take-A-Part" bow is the biggest advancement to Archery in many years. It has done for Archery what the ferrule type "take-apart" fishing rods did for fishing compared to the old bamboo pole. It enables an archer to put all of his equipment into a box just a little larger than the conventional arrow box, saving the inconvenience of the long bow in an auto, on the bus, etc. It allows one to keep his equipment in the trunk of his auto available for use at any time. Eliminates the possibility of breaking the bow in the car door, also the danger of breaking the limbs of the bow when a string breaks.

The Latch is made of forged tool steel with a high tensile strength, guaranteed forever against breakage.

### Four "TAKE-A-PART" Bow Models

No. 150—THE CHIEFTAIN—Hickory backed lemonwood bow with "TAKE-A-PART" handle. Made of well season lemonwood, especially selected for bows, laminated to one eighth inch layer of top quality white hickory. ## FLEETWOOD BOW SETS with "TAKE-A-PART" HANDLE for TARGET ARCHERY

For a number of years we have been searching for a good method of demounting a bow so the archer's complete equipment could be carried and stored in a tackle box very little larger than an arrow box. Some years ago we accomplished this with a machined latch but the cost was prohibitive to make it attractive to the average archer, especially those buying their first equipment. We have now developed a method of manufacturing a strong, light, "TAKE-A-PART" latch that we can install at very little additional cost.
