“Designed 4 You continues to deliver exactly what we were looking for. First, an overall plan for decorating our remodeled 40-year old home and second, a successful plan implementation.

Mindy has a great eye for unique fabrics and pieces, which in the long run saved us time and gave us better value for our investment. She stood by the product if there were any concerns. Best of all, she has helped us turn our house into our home with pieces and colors that we love.”  
- *Patty S.*

“Mindy and her team has consistently delivered not only quality products but a unique approach to design. They do really well at zeroing in on your specific taste or style and then provide suggestions on how to make an average room come to life. We have worked with their group for several years now and we not only enjoy the results but we truly enjoy the staff. They are a great group of people!!”  
- *Scott K.*

“I need to find a way to sufficiently thank you all for everything. We love all of it and couldn't be happier!”  
- *Marybeth R.*

“Our walls throughout the house were originally an off white that complemented (sort of) the black and white decor of the house. We REALLY took the plunge to paint the main living area of the house the three varying shades of cappuccino. I wasn't sure how the artwork in the house would look against the new paint, and, in fact was a little doubtful that the artwork would look as good as it did against the off white. Boy, was I wrong! The walls are beautiful and act as a neutral palette for the art. The colors in the pieces really pop. Amazing!

The two spare bedroom colors accent the trim and the furnishings and lend exactly the "look and feel" that I wanted in both rooms. You were so helpful - and patient - in finding out what the purpose of the rooms would be and how I wanted to use the space. By delving into the result I wanted, not only in the color, but in the short and long range use of the rooms, you offered color suggestions that turned out to be a perfect fit.
