Angling is traditional recreational fishing. Basic angling entails deceiving a fish, so it will swallow a camouflaged (*baited*) hook. Then the fish is dragged out of the water...

Angling serves 1 need (*food-gathering*) & a perceived need to have thrills (*sport*). Angling for food is supported by Universe Custodian Guardians.

Recreational angling for food can be relaxing & good for the stomach. Fish form a major part of any healthy diet. It is an excellent source of protein, a vital source of essential fatty acids, contains a wide variety of vitamins, minerals & it is low in calories.

Angling needs to be supervised by government to avoid over-fishing. Size limits apply to certain species, meaning fish below a certain size must, by law, be released.

The capture & transportation of bait fish can spread damaging organisms between ecosystems, endangering them. The transportation of fish from one location to another can break the law & cause the introduction of fish alien to the ecosystem.

C R U E L T Y to Fish is a crime that is prosecuted!

Cruelty to Fish is insulting **1GOD** a crime to be prosecuted. Sport-fishing, Over-fishing, torturing... Any person, club or organization that sponsors or facilitates Cruelty to Fish are prosecuted & closed down. **MS/R3**

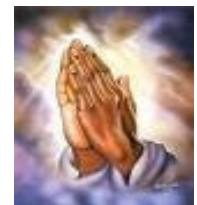

Note! Supervised food-angling/fishing are supported!

1GOD is waiting to here from YOU !
