Hi Michael,

Here is what was discussed this morning for Injury Prevention. Ashley Tremmel, Liz Kracht, and Emily Loertscher attended. We talked about if we were chosen to talk at the RTAC conference what are some ideas to talk about. We figured safety city would be a topic and bike rodeos. We would do injury prevention in a box as the topic. We also talked about how we want to spend the RTAC injury prevention funds as well. Since we know that elderly falls is the number one cause of injury we were talking about doing elderly falls prevention kit that we could pass out to agencies that would be interested in it. It would comprise of a flash drive with a teaching PowerPoint and printable resources along with a trifold of some kind and some giveaway items. We are still working on the exact content of what we would all want in it. We also talked about setting up meetings if we do get chosen to speak at RTAC conference.

Thanks,
Emily
