## **PRESS RELEASE: SUBJECT: THE DAMAGE RESTORATION INDUSTRY**

### **FIRE & WATER RESTORATION VETERANS LAUNCH NEW COMPANY**

*Last updated March 15, 2016 4:19 p.m. (CDST)*

**Chicago, IL, March 16, 2016**— **Restoration Associates Corp**, an affiliate of The Standard Companies, today announced the opening of its new office & warehouse. The 2601 S. Archer Ave. location is conveniently located just 5 minutes south of the Loop.

The new location houses the offices and a warehouse that will store the latest in cutting edge, state-of-the-art, restoration equipment. **Restoration Associates Corp** is geared up to handle all emergency work associated with fires and floods. Their vast array of drying equipment such as commercial low grain refrigerant (LGR) dehumidifiers, high velocity air movers, air scrubbers with HEPA filters, and hardwood floor Inject-I-Dry machines are the best money can buy.

**Restoration Associates Corp** is a fully licensed general contractor (GC) and will also be specializing in repairing the insurance losses to their pre-loss condition.

Thirty-five-year industry veteran and founding partner Tom Nesbitt says,

*“We are all very excited about the new company. I was amazed at the advancements in technology the new equipment now demonstrates in just over the last two years. Just one of the new state-of-the-art LGR dehumidifiers can pull 17 gallons of water out of the air in one day. Our Inject-I-Dry floor drying system can save and lay down a hardwood floor system that has ‘cupped’ from water damage; just imagine the savings if it were a gymnasium floor.”*

Our convenient location and easy expressway access allows us to provide immediate response to the downtown area as well as the surrounding wards and suburbs.
