

We Are All Kentucky

Will Bentley

Hello, my name is Will Bentley. I might just look like a kid to you, but **I am a leader**. While I do have a disability, **I am a great advocate** and I have worked very hard. I struggle with many things in my life. I had seizures for nine years and they changed how I learned to communicate, how I think, and the ways that I can learn. Today I am seizure free!

I receive a Medicaid waiver called the Michelle P Waiver which allows me to be a **part of my community**. Learning new things and visiting new places is hard for me. With the Michelle P Waiver, I get the support that I need to help me be safe in the community. I am building my **independence**. Without the Michelle P waiver, I would not be able to live at home and learn how to be a part of my community.

“Someday, I want to have my own family and live in my own home. I want my own business and a way to take care of my family.”
