

Interlayer Reinforced Asphalt Over Concrete

Aspen Wood Drive
Rehabilitation Design

GENERAL INFORMATION

Owner: City of Willoughby
Engineer: CT Consultants
Product Used: GlasGrid CG 50
Installed By: PS Construction Fabrics
Install Date: Summer 2006
Contact: CT Consultants
216-951-9000

BACKGROUND

Reason for product use:
Resurfacing needed on concrete street

Problem being addressed:
Reflective Cracking

RESULTS

Third year performance evaluation excellent. Nearly 0% reflective cracking compared to the national average of 20% per year. Projected service life of pavement 15-20 years with maintenance cost reduced by 50% or more. Meets with sustainability goals for pavements.
