## Multisystemic Therapy Quarterly Report

Quarterly Data from January - March 2016 and Yearly Data from April 2015 - March 2016

# 71

Total Youth Served for this quarter

# 75%

Percentage of Youth With No New Criminal Offenses While in MST Treatment for this quarter

"MST works with the toughest offenders. They are adolescents, male and female, who typically have significant histories of committing crime."

- Tara Dively, MST Program Director

Instead of removing kids from their home, MST treats them in the community. It goes to the root of the adolescent's problems and finds solutions. It's intensive and it works. MST has demonstrated decreased criminal activity and incarceration in studies with chronic and violent juvenile offenders.

## Crime Numbers in MST Over the Last Year

Number of Youth Discharged

# 108

Percentage of Youth With No New Offenses While in MST

# 86%

# Referrals

for this quarter
