# First Project-1953 165ST Harley

In Davenport last year Kathey and I were admiring a H.D. lightweight which had caught Kathey's eye when Fleming Horne, being the sly fox he is, mentioned that if thats what she wanted, he had a project for us.

At that time, we really did not realize the fun and fellowship this project would provide. The following is a listing of THANKS to fellow club members, as Kathey's bike is 99% complete:

Fleming Horne- technical

Gilbert Cagle- technical, quality control & parts

Byrl Fleming- engine, transmission & lots of technical

Ron Elliott- lacing and trueing wheels, parts

Calvin Burnett- proper grounding expertise!

As newcomers to antique bikes and the club, we have both enjoyed and gained knowledge from our fellow club members, and look forward to putting an effort back into the club in return for the benefits we receive from it. That's what it's all about.

In addition, Kathey has become one of the clubs most proficient sanders, grinders, polishers and cleaners!
